EPOS Sales

Reporting - EPOS Management

Designed for maximum control over your EPOS terminals, the EPOS Sales suite puts you firmly in control over the point of service and delivers key business information to help make quick and timely decisions. Easy to navigate screens make product and price changes quick and simple to implement, allowing businesses to react swiftly to market demands or trends, whether it's updating menus, adding new product lines or programming new prices.

Capable of managing single or multi-site operations in hospitality or retail, EPOS Sales is a scalable solution that can grow as your business develops, helping you protect your investment in the Uniwell EPOS terminals.

EPOS Sales - Features at a Glance

Powerful EPOS Management: Complete control over your EPOS terminals to allow business decisions to be implemented quickly, whether its staff changes, menu updates, new products, price increases, or systems changes.

Remote Communications: Software can be installed on or off-site allowing changes to be made from the comfort of your office wherever it may be.

Business Intelligence: A selection of detailed reports to help you deliver business performance and generate greater profits.

Multiple Price Files: Allow price schemes to be created for specific times throughout the day and different prices for days of the week.

Daily and Weekly Business Sheets: Secure control over cash, takings and cash shortfalls are immediately highlighted.

Clever and Simple to use Menu System: Helps you to successfully run your business with minimal time and effort.

Automated Report Collection: Automated report collection at the end of shift and end of day.

Software Specification

EPOS Sales - Business Intelligence

Operator Analysis: Highlight the most productive / unproductive staff members to award commission or identify training needs. Track sales, voids, corrections, refunds and no sales by operator.

Time and Attendance: Monitors the hours staff work using the clock-in / out functions of the POS.

Electronic Journal: Keep a record of your audit roll on your PC for future reference.

Multi-Site Reporting: Analyse sales from multiple sites, individual and consolidated sales reports are available, with the ability to drill down further.

Historical Analysis: Analyse sales trends over days, weeks, months or years.

3D Charting Tools: In built charting tools.

Report Generator: Optional module to provide custom reports and advanced analysis.

Weekly Summary: Your weekly business done sheet, looking at sales receipts, total income, expenses and banking on a day by day basis for the week.

Cash Variance: Compares the cash expected against the actual cash received, helping trace cash variances.

Sales & Profit Reports: Actual product sales and profitability by date range, for individual or consolidated sites and locations.

Sales Mix: Itemised sales volumes and percentages by date range.

Promotional Loss: Make sure your promotions are working for you, this report compares the difference between the RRP and the actual sales values after discounts and promotions.
